EDUCATION

Bachelor of Arts - BA, Sociology | Saint Mary's University
Diploma, Object Oriented Programming | Advanced Training and Services

PROFESSIONAL SUMMARY

Talented, Senior Full Stack Developer with 20+ years of development in multiple programming languages. Passionate leader focusing on solution design and customer user experience. Enjoy working in a fast-paced environment, while having fun!

CORE COMPETENCIES

- Manage complete software development life cycle of complex applications and projects.
- Demonstrate programming expertise with experience building large-scale applications.
- Ability to develop tests, debug, and implement software tools, and utilities.
- Skilled in guidance, problem-solving to ensure smooth workflow.
- Strong written and verbal communication skills for documentation and correspondence.
- Outstanding interpersonal skills with strong team spirit and great respect for diversity.

PROFESSIONAL EXPERIENCE

Senior Application Architect | CGS – *Saint John, Canada*   **Mar 2016 – Dec 2023**

- Development of enterprise applications, ensuring alignment with business objectives and scalability.
- Collaborated on full-stack development with Node.js, and Express.js, while integrating with databases: integration with MongoDB, MySQL, PostgreSQL, Oracle
- Evaluated emerging technologies and industry trends to assist in architectural decisions and drive continuous improvement.
- Developed and improved an AR app, exceeding business requirements. Created a custom Video Editor using JavaScript DOM, REST API, Node.js, and Typescript.
- Conducted daily scrum meetings, improving communication, collaborative problem-solving, and task tracking for project success.

Senior Application Developer | BELL – Saint John, Canada   **Mar 2016 – 2022**

- Led 4 project teams to develop, implement, and maintain CI/CD pipelines with the DevOPS team to analyze potential system solutions with IBM uDeploy.
- Work collaboratively within development teams to ensure application code is clean, commented, and scalable code.
- Part of the development team responsible for upgrading over 20+ project backends (REST, API, Java, JSF, JSP), while upgrading build scripts from Ant to Maven and successfully deploying all to WebLogic 12c.

Senior Programmer Analyst | JD Irving – Saint John, Canada   **Nov 2010 – Mar 2016**

- Introduced Agile methodologies, including Sprints, SCRUM calls, and Kanban processes, enhancing developmental methodologies by 70%
- Mentored and guided Junior Developers, improving code quality and contributing to the successful growth of 6 developers.
- Unit-tested 100% of all software code to validate code changes.
- Defects management. Worked with others to replicate, review and resolve defects as needed.
- Recommended and executed plans to enhance development tools and processes for increased efficiency and effectiveness.

TECHNICAL SKILLS

- ✓ Node.js
- ✓ Express.js
- ✓ React
- ✓ HTML5, CSS3, DOM
- ✓ Bootstrap
- ✓ Git, GitHub
- ✓ REST APIs
- ✓ MVC
- ✓ Java
- ✓ C#
- ✓ Tomcat
- ✓ Jira
- ✓ PowerShell
- ✓ JQuery
- ✓ DevOps
- ✓ CI/CD
- ✓ MongoDB
- ✓ SQL Server
- ✓ MySQL
- ✓ PostgreSQL
- ✓ Oracle Database

CERTIFICATIONS & AWARDS

- CSSLP Cert Prep: 2 Secure
- CSSLP Cert Prep: 1 Secure
- Oracle Java Certified Programmer
- Voted Captain of minor and Junior hockey teams.

Founder/CTO | Evolving Solutions   **Sept 2001 – Nov 2010**

• Managed third-party vendors to ensure efficient solutions were delivered to our clients.
• Led strategic planning and executed business development initiatives, driving revenue growth and market expansion.
• Developed cutting-edge MVC Content Management System. The entire project Java based on MySQL as the database
• Constantly upgraded code as needed to meet specific client needs.
• Oversaw day-to-day operations, including daily SCRUM calls, and defect tracking to optimize for seamless business operations for all projects and products.

VOLUNTEER EXPERIENCE

Minor Sports Coach
- Cultivate foundational baseball skills, with a focus on instilling values of teamwork, sportsmanship, and clear communication.
- Nourish essential life skills like leadership, resilience, and empathy, providing a holistic learning environment that promotes personal growth for young participants.

Elderdog.ca Volunteer - Saint John, NB, Canada
- Volunteer to walk dogs for elderly individuals, providing companionship and exercise while promoting their well-being.

GratitudeToday
- Donated time and coding expertise to create www.GratitudeToday.org. By contributing my skills, I aim to help this platform reach even more individuals, promoting gratitude and mental well-being.
